

# **SAFETY DATA SHEET**

**Central Heating Cleaner F3** 

### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier |                              |
|------------------------|------------------------------|
| Product name           | : Central Heating Cleaner F3 |
| Product code           | : 56600                      |
| Product description    | : Not available.             |
| Product type           | : Liquid.                    |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Restricted to professional users.

# SupplierTelephone number: +44 (0) 330 100 7750Hours of operation: 24/7

### **SECTION 2: Hazards identification**

| 2.1 Classification of the su                 | ibstance or mixture                        |
|--|--|
| Product definition                           | : Mixture                                  |
| Classification according the Not classified. | to Regulation (EC) No. 1272/2008 [CLP/GHS] |
| Ingredients of unknown toxicity              | :  |
| Ingredients of unknown ecotoxicity           | :  |
| Classification according                     | to Directive 1999/45/EC [DPD]              |
| <u>Europe</u>                                |  |

```
Date of issue/Date of revision : 30.11.2016
```

2/16

**Central Heating Cleaner F3** 

### **SECTION 2: Hazards identification**

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

**Classification** : Not classified.

See Section 16 for the full text of the R phrases or H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements          |   |
|-----------------------------|---|
| Hazard pictograms           | :   |
| Signal word                 | : No signal word.                                   |
| Hazard statements           | : No known significant effects or critical hazards. |
| Precautionary statements    |   |
| Prevention                  | : Not applicable.                                   |
| Response                    | : Not applicable.                                   |
| Storage                     | : Not applicable.                                   |
| Disposal                    | : Not applicable.                                   |
| Hazardous ingredients       | ÷   |
| Supplemental label elements | : Not applicable.                                   |

### 2.3 Other hazards

Other hazards which do : None known. not result in classification

### **SECTION 3: Composition/information on ingredients**

**Central Heating Cleaner F3** 

### **SECTION 3: Composition/information on ingredients**

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|----------------------------|---|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur. In case of inhalation of decomposition<br>products in a fire, symptoms may be delayed. The exposed person may need to be<br>kept under medical surveillance for 48 hours.                                  |
| Skin contact               | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion                  | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.  |

### 4.2 Most important symptoms and effects, both acute and delayed

# Potential acute health effectsEye contact: No known significant effects or critical hazards.Inhalation: No known significant effects or critical hazards.Skin contact: No known significant effects or critical hazards.Ingestion: No known significant effects or critical hazards.Over-exposure signs/symptomsEye contact: No specific data.Inhalation: No specific data.

|--------------|---------------------|
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours. |
|---------------------|--|
| Specific treatments | : No specific treatment.   |

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | : Use an extinguishing agent suitable for the surrounding fire. |
|--|---|
| Unsuitable extinguishing media                             | : None known.   |

### 5.2 Special hazards arising from the substance or mixture

Hazards from the : In a fire or if heated, a pressure increase will occur and the container may burst. substance or mixture

Central Heating Cleaner F3

### **SECTION 5: Firefighting measures**

| Decomposition products may include the following materials:<br>carbon dioxide   |
|---|
| carbon monoxide<br>nitrogen oxides<br>sulfur oxides<br>phosphorus oxides<br>halogenated compounds<br>metal oxide/oxides   |
|   |
| Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |
|   |

### **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | te | ctive equipment and emergency procedures   |
|---------------------------------|----|--|
| For non-emergency<br>personnel  | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders        | :  | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions   | :  | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| 6.3 Methods and material for    | со | ntainment and cleaning up  |
| Small spill                     | :  | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |
| Large spill                     | :  | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other sections | :  | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 7.1 Precautions for safe handling

**Protective measures** 

: Put on appropriate personal protective equipment (see Section 8).

Central Heating Cleaner F3

### **SECTION 7: Handling and storage**

| Advice on general<br>occupational hygiene                              | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
|--|---|
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 5 to 30°C (41 to 86°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. |
| 7.3 Specific end use(s)  |   |
| Recommendations  | : Not available.  |
| Industrial sector specific solutions                                   | : Not available.  |
|  |   |

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 8.1 Control parameters

### **Occupational exposure limits**

| Product/ingredient name        | Exposure limit values  |

### **SECTION 8: Exposure controls/personal protection**

| United Kingdom (UK)                                |  |  |
|--|--|--|
| propane-1,2-diol                                   | EH40/2005 WELs (United Kingdom (UK), 12/2011).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Particulate<br>TWA: 474 mg/m <sup>3</sup> 8 hours. Form: Sum of vapour and particulates<br>TWA: 150 ppm 8 hours. Form: Sum of vapour and particulates   |  |
| Recommended monitoring<br>procedures               | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to monitoring standards, such as<br>the following: European Standard EN 689 (Workplace atmospheres - Guidance for<br>the assessment of exposure by inhalation to chemical agents for comparison with<br>limit values and measurement strategy) European Standard EN 14042 (Workplace<br>atmospheres - Guide for the application and use of procedures for the assessment<br>of exposure to chemical and biological agents) European Standard EN 482<br>(Workplace atmospheres - General requirements for the performance of procedures<br>for the measurement of chemical agents) Reference to national guidance<br>documents for methods for the determination of hazardous substances will also be<br>required. |  |
| Derived effect levels<br>No DELs available.        |  |  |
| Predicted effect concentrate<br>No PECs available. | <u>ions</u>  |  |
| 8.2 Exposure controls                              |  |  |
| Appropriate engineering controls                   | : Good general ventilation should be sufficient to control worker exposure to airborn contaminants.  |  |
| Individual protection meas                         | <u>ures</u>  |  |
| Hygiene measures                                   | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period Appropriate techniques should be used to remove potentially contaminated clothing Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |  |
| Eye/face protection                                | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. Recommended: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.   |  |
| Skin protection                                    |  |  |
| Hand protection                                    | <ul> <li>Chemical-resistant, impervious gloves complying with an approved standard shoul<br/>be worn at all times when handling chemical products if a risk assessment indicate<br/>this is necessary. &lt; 1 hour (breakthrough time): disposable vinyl</li> </ul>  |  |
| Body protection                                    | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: None assigned.  |  |
| Other skin protection                              | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |  |
| Respiratory protection                             | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: None assigned.  |  |

**Central Heating Cleaner F3** 

### **SECTION 8: Exposure controls/personal protection**

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### **SECTION 9: Physical and chemical properties**

| 9.1 Information on basic physica                | a | nd chemical properties   |
|---|---|--|
| Appearance                                      |   |  |
| Physical state                                  | : | Liquid.  |
| Colour  | : | Clear. Amber.  |
| Odour   | : | Faint  |
| рН  | : | 7 [Conc. (% w/w): 100%]  |
| Melting point/freezing point                    | : | Not available.   |
| Initial boiling point and<br>boiling range      | : | 100°C  |
| Flash point                                     | : | [Product does not sustain combustion.]                               |
| Upper/lower flammability or<br>explosive limits | : | Not available.   |
| Relative density                                | : | 1.18   |
| Solubility(ies)                                 | : | Easily soluble in the following materials: cold water and hot water. |
| Partition coefficient: n-octanol/<br>water      | : | Not available.   |
| Auto-ignition temperature                       | : | Not available.   |
|   | : |  |
| VOC content                                     |   | 13.6 % (w/w)   |

### 9.2 Other information

No additional information.

| <b>SECTION 10: Stabilit</b>              | y and reactivity   |
|--|--|
| 10.1 Reactivity                          | : No specific test data related to reactivity available for this product or its ingredients.           |
| 10.2 Chemical stability                  | : The product is stable.   |
| 10.3 Possibility of hazardous reactions  | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| 10.4 Conditions to avoid                 | : No specific data.  |
| 10.5 Incompatible materials              | : No specific data.  |
| 10.6 Hazardous<br>decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

### vPvB : Not applicable.

12.6 Other adverse effects : No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

| Product             |  |
|---------------------|--|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |

**Central Heating Cleaner F3** 

### SECTION 13: Disposal considerations

Hazardous waste

: Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

14/16

### European waste catalogue (EWC)

| Waste code          | Waste designation   |  |
|---------------------|---|--|
| 16 03 06            | organic wastes other than those mentioned in 16 03 05   |  |
| Packaging           |   |  |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.                                |  |
| Special precautions | This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. |  |

### **SECTION 14: Transport information**
